

MEP1C, MEP2C & MEP3C PROGRAMMERS

The MEP1c, MEP2c and MEP3c are single, dual and triple channel programmers offering energy efficient control of your heating system.

MEP1c is a single channel programmer for use with combi boilers, as a domestic hot water control or with electric radiators when using a programmable thermostat for the central heating circuit. MEP2c is a dual channel programmer for use within a central heating system to control two circuits. MEP3c is a three channel programmer, designed for installations where there is a need for two heating zones and a hot water circuit.

They are the first choice with service engineers due to their compliance with the industry standard back plate and the unique front fixing arrangement.

- 2** **GUARANTEE**
2 year guarantee from date of purchase against manufacturing defects.
- IP** **IP RATING**
IP20.
- DELIVERY**
2 - 5 working days.

For more general information, please see page 242.
