

HEATING
VALVES

DECORATIVE TRVS

Utilising the same sensing and operating performance of the thermostatic valve, the decorative TRV combines both technology and elegance. With a beautiful, highly polished chrome finish, the range incorporates a choice of valve designs to meet the needs of the different styles of modern radiator. A slimline version is also available for use with contemporary radiators and towel warmers. Straight, angle and horizontal versions are available.

GENERAL SPECIFICATION

-  **CERTIFICATION**
Produced under a quality management system - ISO 9001:2008 and complies to EN 215-1.
-  **OPERATING PRESSURES**
Tested to a maximum pressure of 10 bar (compression and screwed iron), 3 bar (pushfit).
-  **GUARANTEE**
2 year guarantee from date of purchase against manufacturing defects.
-  **OPERATING TEMPERATURE**
Maximum 120°C (compression and screwed iron), 92°C (pushfit).
-  **COLOUR**
Finished in polished chrome.
-  **DELIVERY**
2 - 5 working days.
-  **CONNECTIONS**
Compression, pushfit or screwed iron.

For more general information, please see page 242.
